

Why Wireless?

Simplicity – Our installation process is simple and clean with **no wiring required**, allowing us to work in an operational care home without disruption to staff and residents.

Value – This competitively priced system can bring you **savings of up to 40%** against a hard wired alternative.

Flexibility – The modular nature of the system means it can be **added to and reconfigured with ease**, providing your home with a system that can grow and adapt to an ever changing care home.

Information – Easy to view 'real time' reports are accessible at the click of a button, showing how many calls occur, how quickly they are responded to and which nurse responded.

To find out more about the Altra Care Range, call **0800 068 7419** to arrange a no obligation demonstration with one of our consultants.

Comes with **3 Year Warranty***

SMART NURSE CALL

THE ALTRA CARE RANGE IS OUR WIRELESS NURSE CALL SYSTEM
DESIGNED SPECIFICALLY FOR THE CARE HOME SECTOR

Comes with **3 Year Warranty***

SMART NURSE CALL

The Altra Care Wireless Nurse Call System is the latest Nurse Call System on the market, combining Smart Mobile Technology with the best of Wireless Nurse Call.

Comes with **3 Year Warranty***

CONNECTIVITY

Built in Bluetooth and WiFi sensors, allowing connectivity and integration with a wide range of devices.

- Wireless accessories
- Smart device integration

CAPABILITY

The multiple on-board sensors mean your Nurse Call System will allow you to monitor resident and staff activity throughout your care home, enhancing your ability to provide the safest possible environment for those you care for.

- Fall detection
- Movement monitors

RELIABILITY

The system uses the dedicated European 869.2MHz social alarms frequency to reduce interference. The 'listen before talk' anti-collision technology and acknowledgement of calls ensures calls are received reliably.

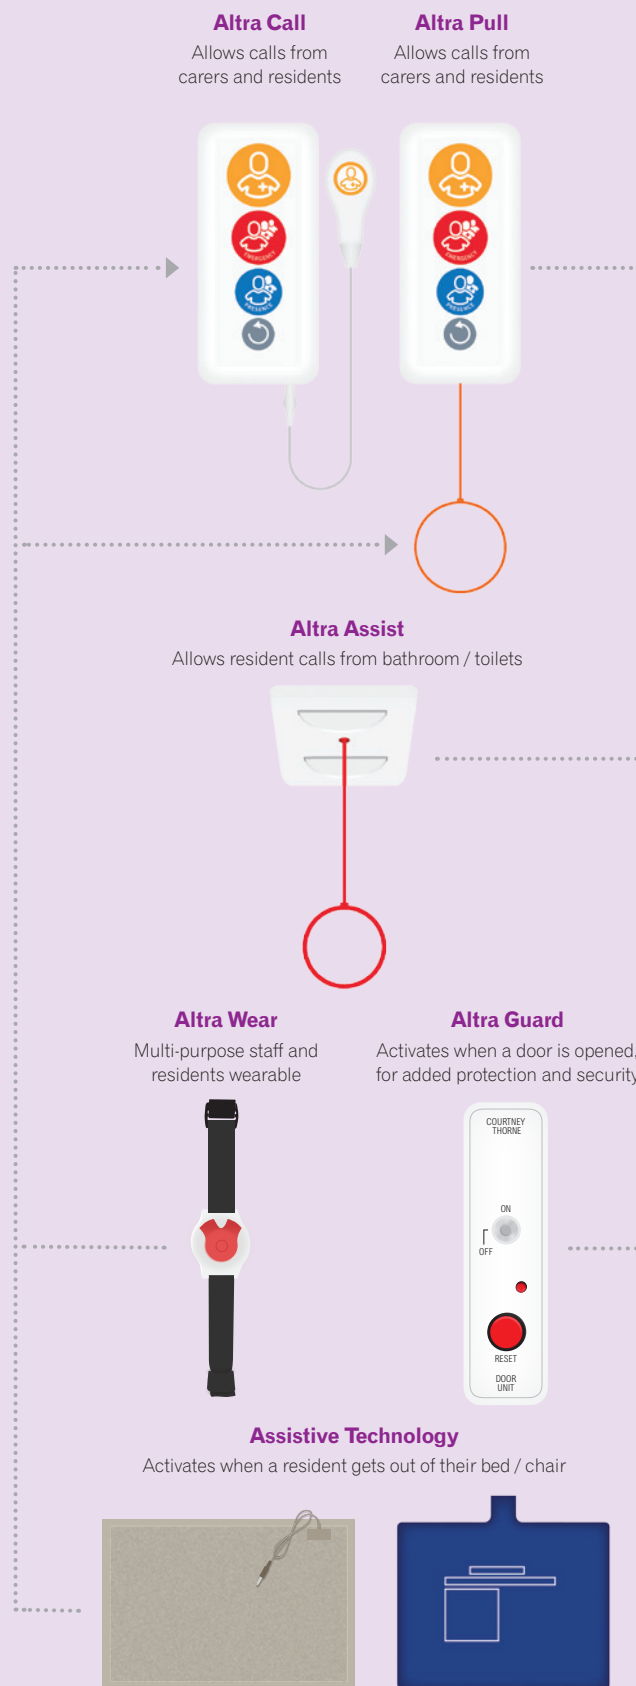

SIMPLICITY

No programming or configuration is required, meaning new Courtney Thorne devices can be added to your system "out of the box".
